

E-PLEA & PAY

Online pleas/payments, automatically recorded in JIMS

E-PLEA & PAY is a win-win: the **public can make payments 24/7**, and the **court saves time** because it automatically records payment, as well as disposing, sentencing and closing pled cases in JIMS.

- Received and recorded more than \$10,000,000 in payments for courts in 2018.
- Closed over 23,000 cases pled in 2018.
- These services are now (2019) available to the Court at \$0 added cost
- Accepts VISA, MasterCard and Discover on all payment types.
- Have another payment service provider? Ask us how to use both services to your advantage!

Additional advantages

- **Payments and pleas shows up online immediately**, which is especially important when a warrant has been issued for non-payment.
- **Simultaneously accepts both the payment and the plea**. Some other e-pay providers let you enter a ticket number, but don't accept pleas. This can result in traffic ticket payments being accepted by the court without a plea, which is a violation of section (a) of Illinois Supreme Court Rule 529.
- **Defendants can even request supervision** and apply for traffic school (E-Sup).
- **You never get a payment for the wrong case/county**, because payors start by searching for their case.
- **Less paper for your office to process**, since payors don't need to mail in a plea.

E-Plea & Pay

More features

- You receive an email of every payor's receipt. Case number shows in both the email and the reconciliation screen, which helps out when a payor has multiple cases.
- Each payment gets specially marked in JIMS to ensure that it isn't disbursed until it's reconciled with your bank deposits, which always lag by 1-3 days. With other e-pay services, the only way to avoid disbursing money you do not yet have is to delay your manual entry of payments for 1-3 days.
- You can run a Driver's License Return Report to quickly show cases where a bond, such as Driver's License or bond card, was used and needs to be returned.
