

Courts online, any time

Services for

- Attorneys
- Law enforcement
- Journalists
- Abstractors
- Background checks
- Judgment recovery

### Subscriptions

As a public service, **JUDICIUM** provides you free access to most of the court's publicly-available data on any single case. Paid subscriptions, on the other hand, add sophisticated time-saving services which package court data in various useful ways, and can let you see some **non-public data** automatically, e.g.,

- See **Court Reporter initials** on case minutes to facilitate transcript requests
- See **Document Control Number** – of interest to Probation and Law Enforcement Officers

Subscriptions in courts with the **EXTENDED ACCESS SERVICE** can also be setup to see other **non-public data**, with the court's permission. For instance, juvenile probation officers can be setup to see secure juvenile data, or deputies can be setup to access secured warrant information.

### Subscription Services which cover Multiple Courts

Individualized views of data for one or more participants, including attorneys, judges and law enforcement officials – for all cases which the court associates with the participant, across all participating counties

- See **docket information** the way **attorneys** need to see it.
- See **your Schedule** for days in court for all our participating counties
