

PC JIMS PROSECUTOR

Integrated Case Management for State's Attorney

COMPANY PROFILE

Goodin Associates, Ltd. (GAL) was formed in 1986 as a software and support provider to the courts. Since then, its JIMS (JUDICIAL INFORMATION MANAGEMENT SOFTWARE) has been chosen by 80 of Illinois' 102 counties. PC JIMS PROSECUTOR, running on Windows®, was developed to serve the needs of Illinois State's Attorneys as part of our integrated suite of applications for the justice system.

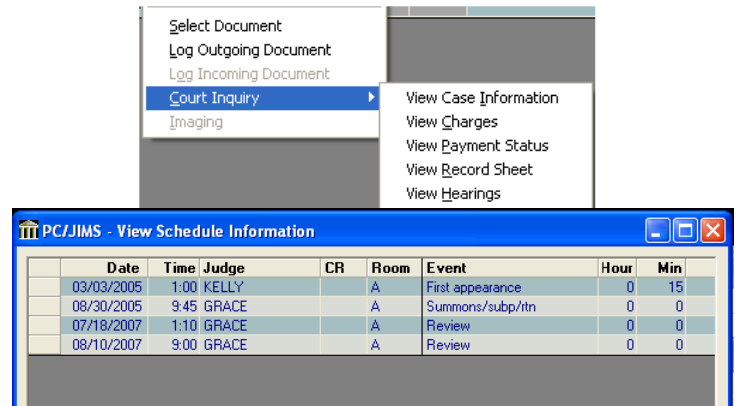

Case Management System

PC JIMS PROSECUTOR makes it easy to track

- Your investigations
- Suspects and their associations
- Case participants --victims, police officers, attorneys, judges, evidence owners, others
- Defendant info, hearings, charges
- Police Report ID

Integration with Circuit Clerk data & documents

- View case data & documents
- Search clerk's hearings
- Import existing case data
 - Defendant data - name, address, DOB, etc.
 - Case Info - charges, dispositions, sentences
- Refresh your data to update with current Court data
- See a client's balance across all cases, and last payment date
- Import Clerk registered attorneys, judges and law enforcement officers
- Use with PC JIMS IMAGING* for access to the Circuit Clerk's documents, audio and video and for independent and secure storage of similar Prosecutor files.

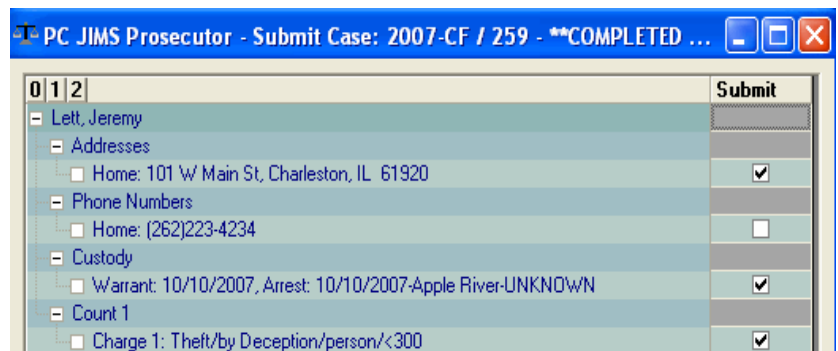

E-File charging decisions and documents to the Clerk

- Electronically initiate and submit a case to the Circuit Clerk's system, indicating defendant name, demographics and charges.

Master Charge Table

- Create master charge table narratives, such as those in the Uniform Complaint Book, then customize on each case.

Document Merge

Quickly produce documents from case data. Use Microsoft Word or Corel WordPerfect to create merge documents.

- Information, Criminal Complaint or Indictments
- Subpoenas, Notices to Appear, Summons
- Warrants, Motions, Letters, Orders
